PROFESSIONAL EXPERIENCE

Hybrid Web & Graphic Developer

Dec 2025 – Present

Securion | Chicago, IL (Remote)

- Led a company-wide rebrand by redesigning the corporate logo, visual identity, color palette, and marketing assets.
- Designed UX/UI wireframes, prototypes, and responsive web pages that improved usability and visual consistency.
- Developed front-end webpages while creating custom 3D assets in Spline and digital marketing materials in Adobe Creative Suite.

Web Developer (Contract)

Aug 2025 – Present

Various Clients | Remote & Detroit, MI

- Designed, developed, and launched responsive websites for multiple clients.
- Created UX/UI wireframes and high-fidelity prototypes in Figma before implementing websites in Wix and TypeScript.
- Configured DNS, domain transfers, Google Workspace email, XML sitemaps, and SEO for successful launches.
- Collaborated directly with clients to gather requirements, present iterations, and implement feedback.
- Delivered accessible, mobile-first websites following UX/UI, WCAG, SEO, and cross-browser best practices.
- Provided post-launch support and troubleshooting.

Lead Web Designer (Intern)

Nov 2024 – Dec 2024

Super Purposes | Seattle, WA (Remote)

- Led a team of web designers by assigning work based on strengths and project priorities.
- Mentored designers through one-on-one meetings and performance feedback.
- Interviewed and evaluated design candidates.

Web Designer (Intern)

Jun 2024 – Oct 2024

Super Purposes | Seattle, WA (Remote)

- Designed responsive web pages in Wix using Figma UI/UX designs.
- Led team meetings to coordinate development tasks.
